21.7.2015
21.07.2015 Report on bioenergy conflicts and ways of management
Report is published in 2014 with the emphasis on social conflicts, sustainability questions, conflict management resolution and broadening of conflict dimensions.

22.6.2015
10.06.2015 The Second International Conference "The perspectives of socio-economic development of border regions"
The conference was organized second time in premises of Karelian Research Centre on cross-border issues.

1.6.2015
18-19.05.2015 Lecturing to international students at Petrozavodsk State University
The expert from Debeg project carried out a set of lectures on global bioenergy/forest conflict database with focus on risk and opportunities for business development. The students in the audience were from Russia, Finland, UK and China.

18.5.2015
12-13.05.2015 DEBEG team held a brainstorming seminar in Mekrijärvi

In Brief
The objective of this project is to analyze the emergence of Bioenergy governance systems and regulation in Europe from a transnational scale to local environments.
The project is funded by the University of Eastern Finland under the Call for Innovative Research Initiatives, and the leadership of Professor Jarmo Kortelainen.

Focus on Transnational Governance Networks

Empirical research

Case studies at different spatial scales

- EU's design of the bio-/renewable energy policy
 - National and regional operationalisation; national policies/regional programmes (Finland, Germany, Norway, Estonia)
 - Local materialisation; local bioenergy projects (Finland, Germany, Norway, Estonia)
- A 'global' perspective
 - Database of bioenergy conflicts
 - Local bioenergy in Kenya
 - Canada-EU relations

Thank you!
